

# a suggestive map

# for spandrelling in copenhagen

by christopher robbins

parfyme harbor  
laboratory

paint the plywood to  
look like bricks for  
added privacy

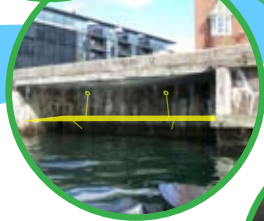

a monster truck tire  
is easier to sleep in

extend the stairs

build a bigger  
box

the raft's already  
built for you

electricity!

cut a door into  
a recycle bin

## what is a spandrel?

Spandrels are unplanned-for spaces, forgotten architectural details, like the triangular space left beneath a stairwell, between an arch and the ceiling, under a bridge, behind a door...

spandrel

they've made a  
hammock for you!

## what is spandrelling?

Spandrelling means using these empty spaces, building structures for sleeping, eating, looking at stars...

This map leads you to spandrels in copenhagen that you can reach by water, and offers suggestions for spandrelling these spaces yourself.
